

KIDNEY & TRANSPORT – FAREWELL TO FRANÇOIS VERREY

9th International Kidney.CH Symposium
June 21st, 2019 :: Zurich, Switzerland

09.15	BEATRICE BECK SCHIMMER & JOHANNES LOFFING	Welcome & Introduction
PROXIMAL TUBULE TRANSPORT		
09.30	CARSTEN WAGNER	Shall I keep it, shall I excrete it? Renal phosphate handling
09.50	MANUEL PALACIN	Heteromeric Amino acid Transporters: pathophysiology and structure
10.20	OLIVIER DEVUYST	The kidney as a protein factory
10.40	Coffee break	
KIDNEY & O₂		
11.10	VARTAN KURTCUOGLU	Of transporters, small, and data, big
11.30	ROLAND WENGER	Renal Epo
11.50	SOPHIE DE SEIGNEUX	Tubular cell metabolism and kidney disease
12.10	ANDREW HALL	Mitochondria in the kidney
12.30	Lunch	
TRANSPORT REGULATION		
13.30	JOHANNES LOFFING	The sense of K ⁺ sensing
13.50	DAVID PEARCE	SGK1: signal integrator in the control of electrolyte balance and blood pressure
14.20	RICHARD WARTH	Renal tubules: workhorse and Achilles' heel
14.50	Coffee break	
MORE TRANSPORT		
15.20	SIMONE CAMARGO	Amino acids in the juice: transport and secretion in the exocrine pancreas
15.40	KLAAS MARTINUS POS	Transporters from another world
16.10	HANNELORE DANIEL	Science; quo vadis
16.40	FRANÇOIS VERREY	Looking back – and ahead
17.00	APERÓ
